ORGANIZATION.

As a beginning of the end, the club will be without a home henceforth until some elixir is discovered. The Board of Directors of the club Monday afternoon decided to store the furniture, put the books in a safe deposit box and, as it were, mythicate the organization by permitting the presi-dent of the club, Robert C. Day, to have the power of calling together the directors whenever the notion might strike his fancy, which it is thought will not be very often. His experiences of the last few nonths have discouraged him trying to get together a quorum of the directorate. Time and again has he attempted to get a

Time and again has he attempted to get a working majority together, but apparently none cared to be present at the wake. No meeing of the club has been held since before the election.

The lease on the large clubhouse expired about two months ago. It will not be renewed. The business men in the party are not in a mood to contribute to its support and not enough of the politicians hold office to stand sufficient assessments, even supposing the owners would renew the lease which it is said is not their present mood.

present mood.

In order to prevent the organization of another club, the corpse of the Hamilton Club will apparently be preserved in alcohol as a sort of scarecrow.

If any meetings of the board are held they probably will be in the rooms of the City Committee, provided that organization continues to remain intact. Just now there are no indications that the board ever will meet again, in the committee headquarters or any other place.

HAS DONE NO GOOD.

"The club has never done any good." "Every club has always been a vehicle for factionalism, and what use are they? It costs money—about \$200 a month, and just at present we are not paying such sums for ornaments."

The St. Louis Hamilton Club is the outgrowth of two former Republican organizations—the Merchants' League and the St. Louis Republican clubs. The Merchants' League was a Zeigenhein and Kernes machine, and the St. Louis Republican Club was organized as a protest against the gang which ran the former. Finally the new club gained so in prestige, especially after the ascendancy of Roosevelt, that the League aii but gave up the ghost.

that the League all but gave up the ghost.

Just before it died, many of the principal members organized the Hamilton Club, with a formidable board of directors. They made such a good showing in the party organization that a merger of the Hamilton and the St. Louis Republican Club was effected under the name of the St. Louis Hamilton Club.

With the approaching demise of the organization, the Republicans practically are without any sort of leadership. The City Committee is split into three factions, one of which, called the Big Eight, has central of the patronage. The other

Department Answering Alarm

In January, 1829. Ryan was arrested in a theater crowd where a woman's pecket was pleked.

Joesph L. Schuler signed his bond, which was forfeited. Schuler found Ryan in New Orleans. A detective was sent after him, and on the way back Ryan slipped his handcuffs from his wrists and jumped from a car window. Since that time, he says, he passed through St. Louis several times, but never stepped.

"How did you come to land in St. Louis this time." asked Chilef Kleiy.
"I was on my way South, was broke, and thought I would stop off and get some money from a friend," repited Ryan.

"You know we don't allow your kind here, don't you?" queried the Chief.
"I ought to, when none of the 'good guns' of the country came here for the World's Fair," was the reply.

A warrant churcing Ryan with attempted grand larceny will be applied for this morning. The old charge, also, will be brought up against him. "I guess I'm in for E," he remarked when being led to the holdover by Detective Murphy.

Since he escaped, six years ago, Ryan served three years in the Michigan City Penitentiary in Indiana. He was arrested in Anderson for picking a pooket and in Anderson for picking a pooket and plead guilty. He has served several sen-

Bursting open the door he attempted to enter the room, but was driven back by the smoke. After he had taken a breath of fresh six he made a second attempt.
